The U.S. Long History of Immigration

As evidenced by the video's people have been immigrating to the United States for a very long time. This is due to the fact the "United States was an idea that grew into an economic powerhouse which we call the land of opportunity..."

World Trends

The world has been on a journey that is only now being realized. Economic prosperity and interconnectedness that we are only now beginning to realize...

Animated Bubble Charts

These charts show you which countries are prospering ahead of others and that there is in fact a link between percapita GDP and Life Expectancy, Literacy and Numeracy.

U.S. Immigration Timeline: 50 Year Increments

These charts show the correlation between some world events that were happening and their corresponding activity whether it's economic, health related, or affecting the populace.

Final Summary

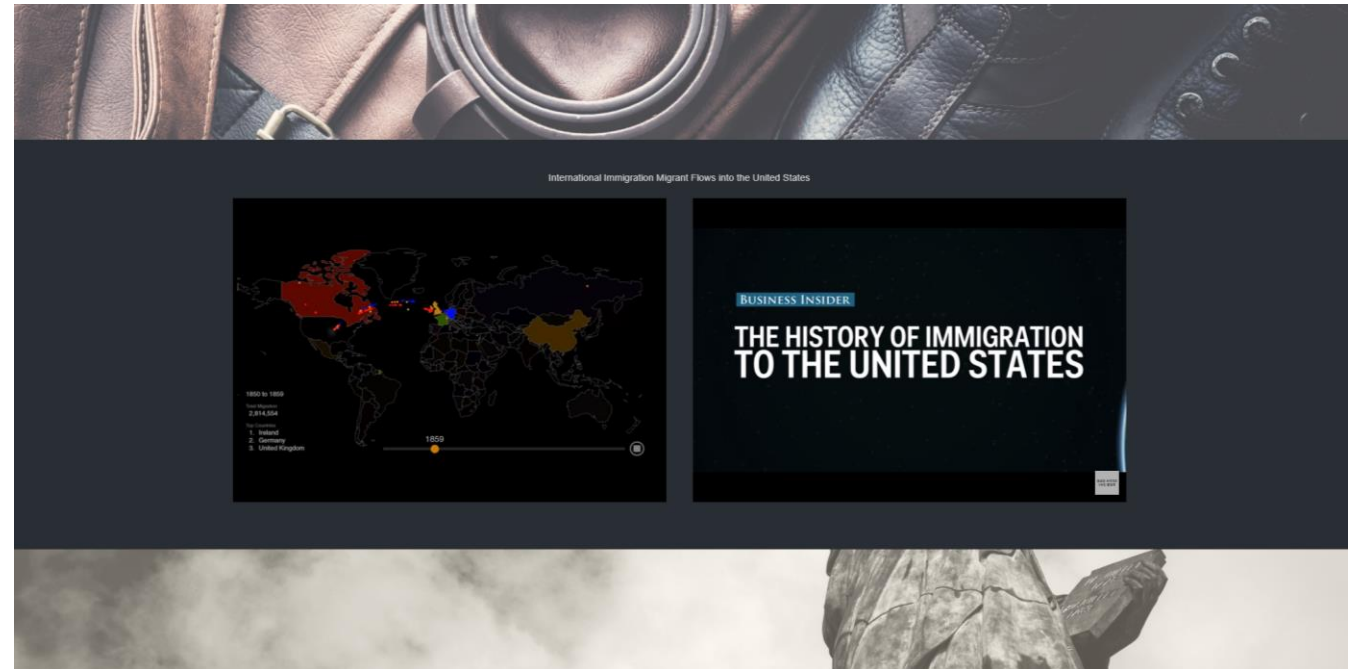

The United States continues to be the land of opportunity! This is evident by the sheer numbers of people migrating here throughout history. Even today people risk their lives, cross the border illegally in order to start a new life in this very country.
